

École Debden Public School

We believe:

All students can achieve high standards. All teachers can teach to high standards. High expectations and early interventions are essential.

Teachers must be able to articulate what they do and why they teach the way they do.

In order to have a safe environment conducive to quality learning, it is necessary to encourage and nurture positive behaviours and relationships in our school community.

What our staff learning looks like:

Our staff learns with each other and from each other. We engage in meaningful Professional Development throughout the school year, both within the division and through other professional means. Our main areas of focus are early learning, literacy, numeracy, experiential play based learning, and relationship building.

What excellence looks like:

Excellence in our school is the creation of a nurturing environment that inspires curiosity, supports diverse learning needs, and encourages collaboration. It prioritizes academic rigor, creativity, and developing responsible citizens.
